PROFESSIONAL SUMMARY

- MERN AI-focused Software Engineer with 4+ years of experience in building scalable applications and developing data-driven solutions.
- Skilled in Python, machine learning, and model deployment using real-world datasets. Experienced in integrating OpenAI APIs, building ML-powered applications, and working with data preprocessing and predictive modeling. Passionate about AI systems, MLOps, and cloud-based solutions

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, PHP, C#
- **Machine Learning:** Regression, Classification, Clustering, Model Evaluation
- **Libraries/Frameworks:** Scikit-learn, Pandas, NumPy (TensorFlow/PyTorch – basic)
- **Data Tools:** Jupyter Notebook, Google Colab (Google Drive Connected), Excel, Data Preprocessing
- **AI & LLMs:** OpenAI API, Prompt Engineering
- **Backend:** Node.js, Express.js, Flask, Fast API, RESTful APIs, Microservices, JWT Authentication, Middleware
- **Frontend:** React.js, Redux, HTML, CSS, Tailwind
- **Database:** MongoDB (Schema Design, Optimization), MySQL, SQL Server
- **Tools & DevOps:** Git, GitHub, Docker (Basic), Azure DevOps (Familiar), CI/CD (Familiar)
- **Other:** Agile Methodology, API Security, MVC Architecture, Performance Optimization

Deployment & Hosting: Docker (basic), Azure DevOps (familiar)**Other Expertise:** MVC Architecture, Responsive UI Design, Project Deployment, Curriculum Design

AI & DATA PROJECTS

Student Performance Prediction System (ML + Flask)

- Built a machine learning model (Random Forest) to predict student exam scores with ~90% accuracy

- Performed data preprocessing, feature engineering, and model evaluation
- Developed a Flask-based web application for real-time predictions
- Integrated Google Sheets API for live data pipeline and visualization

Data Science & Statistical Analysis (R & Python)

- Conducted Exploratory Data Analysis (EDA) on real-world datasets
- Implemented hypothesis testing, regression analysis, and visualization
- Taught and applied statistical modeling techniques

OTHER SKILLS

MVC Architecture, CRUD Operations, State Management, API Security, Deployment & Hosting

PROJECTS OVERVIEW

Developed and deployed **AI-driven web applications using Flask and Python**, integrating machine learning models for prediction, data processing, and intelligent decision-making systems.

- EarthScape Climate Agency (Flask + AI Project)

-  **GitHub:** https://github.com/syedjazib456/earthscape_climate_agency/
 - Developed a climate-focused web application using Flask and Python to analyze and visualize environmental data.
 - Designed and implemented data processing pipelines using Pandas and NumPy for efficient handling of climate datasets.
 - Built interactive UI components for real-time data visualization and insights.
 - Integrated machine learning models (future-ready) for predictive environmental analysis.
 - Structured the application with a modular and scalable architecture for easy expansion and API integration.

- Edu Predict (Flask + Machine Learning Project)

-  **GitHub:** https://github.com/syedjazib456/edupredict_app
 - Developed a machine learning-based web application using Python, Flask, and Scikit-learn to predict student academic performance.
 - Designed and implemented data preprocessing pipelines using Pandas and NumPy for efficient feature engineering and model training.
 - Built a responsive web interface to allow users to input student parameters and receive real-time predictions.

- Integrated a trained ML model (Pickle format) for accurate and fast prediction of exam scores.
- Improved model performance through feature selection and optimization techniques.
- Structured the project with a modular and scalable architecture for future AI and API integration.

Followed Agile methodology and participated in code reviews to ensure high-quality and scalable solutions.

PROFESSIONAL EXPERIENCE

SENIOR FACULTY MEMBER - AI & Software Development

Aptech Learning North Karachi

July 2022 – Present

- Teaching Python, Machine Learning, and Data Science concepts
- Mentoring students in real-world AI/ML projects
- Covering regression, classification, and statistical modeling
- Delivered hands-on training in MERN stack while developing and supervising real-world full-stack applications.
- Mentored students in building scalable web applications using React.js, Node.js, and MongoDB.
- Reviewed and optimized student codebases, ensuring clean architecture and performance best practices.
- Designed and implemented 20+ production-level MERN projects simulating real-world client requirements.
- Applied Agile practices including sprint planning, code reviews, and iterative development.

IT Assistant Intern (Networking & Systems Support)

Karachi School of Arts

Feb 2022 – June 2022

- Assisted in maintaining and troubleshooting the Student Information Management System (SIMS), improving system efficiency and reducing downtime.
- Supported database operations and data handling using MySQL, ensuring data accuracy and consistency.
- Collaborated with the development team to support internal web applications built with PHP and JavaScript.
- Performed system monitoring, backups, and user access control to ensure data security and system reliability.
- Helped digitize manual processes, contributing to improved workflow efficiency across departments.
- Provided technical support to staff, resolving system and network-related issues and improving user adoption.

CORE COMPETENCIES

- Full Stack Development (MERN)
- REST API Development
- Microservices Architecture
- Performance Optimization
- Scalable System Design
- Debugging & Troubleshooting
- Code Review & Mentorship

EDUCATION

NED University of Engineering & Technology

August 2024 – August 2026

MS Data Science

Federal Urdu University of Arts, Science & Technology

January 2018 – January 2022

BS Computer Science

ACHIEVEMENTS

🏆 **Performer of the Year Award** – Recognized by the **FSO** for exceptional teaching performance and academic contribution (as **Senior Faculty Member**).

🌟 **Star Performer Award** – Awarded for outstanding results and student success.

💬 **Best Motivator Award (2x)** – Honored twice for inspiring and guiding students toward achieving their academic and professional goals.

LEADERSHIP & EVENT MANAGEMENT

- Led and coordinated multiple **institutional exhibitions and tech events**, including **Aptech Vision**, **Software Project Exhibitions**, and **TechWiz Competitions**.
- Provided technical guidance to students during event project preparation and presentation phases, ensuring professional execution and innovation.
- Fostered collaboration between departments, enhancing event visibility and student engagement.
