

SYED JAZIB HABIB

syedjazib456@gmail.com | +923357467524 | Karachi, SD Pakistan

PROFESSIONAL SUMMARY

- MERN Stack Engineer with 4+ years of experience building scalable full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Strong expertise in developing RESTful APIs, microservices architecture, and integrating responsive front-end interfaces with secure backend systems.
- Proficient in React.js, state management, and performance optimization. Experienced in Agile environments, code reviews, and mentoring developers. Passionate about building high-performance, scalable applications.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Angular 2+, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs, Microservices, JWT Authentication, Middleware
- **Database:** MongoDB (Schema Design, Optimization), MySQL, SQL Server
- **Tools & DevOps:** Git, GitHub, Docker (Basic), Azure DevOps, CI/CD (Familiar)
- **Other:** Agile Methodology, API Security, MVC Architecture, Performance Optimization

Deployment & Hosting: Docker (basic), Azure DevOps (familiar)**Other Expertise:** MVC Architecture, Responsive UI Design, Project Deployment, Curriculum Design

OTHER SKILLS

MVC Architecture, CRUD Operations, State Management, API Security, Deployment & Hosting

PROJECTS OVERVIEW

Designed and developed multiple full-stack web applications using **MERN Stack, ASP.NET Core, PHP, and MySQL**, focusing on performance, scalability, and user engagement.

- **Fitness Tracker App (MERN Stack)**
-  **GitHub:** https://github.com/syedjazib456/fitness_tracker/
 - Developed a full-stack fitness tracking application using MongoDB, Express.js, React.js, and Node.js.

- Designed and implemented RESTful APIs with JWT authentication and role-based access control.
 - Improved API response time by 25% through query optimization and indexing.
 - Integrated real-time user progress tracking with dynamic React components.
 - Ensured scalable architecture using modular and reusable backend services.
- **Hotel Elite (MERN Stack)**
 -  **GitHub:** https://github.com/syedjazib456/hotel_elite
 - Developed a full-stack hotel management and booking system using MongoDB, Express.js, React.js, and Node.js.
 - Designed and implemented RESTful APIs for room booking, user management, and reservation tracking.
 - Built dynamic and responsive user interfaces using React.js with efficient state management.
 - Implemented secure authentication and authorization using JWT for user and admin roles.
 - Optimized database queries and schema design in MongoDB to improve performance and scalability.
 - Integrated real-time booking status updates and validation to enhance user experience.
 - Applied modular architecture and reusable components for maintainability and scalability.
 - Followed Agile development practices and conducted code reviews to ensure high-quality code..

Followed Agile methodology and participated in code reviews to ensure high-quality and scalable solutions.

PROFESSIONAL EXPERIENCE

SENIOR FACULTY MEMBER

Aptech Learning North Karachi

July 2022 – Present

- Delivered hands-on training in MERN stack while developing and supervising real-world full-stack applications.
- Mentored students in building scalable web applications using React.js, Node.js, and MongoDB.
- Reviewed and optimized student codebases, ensuring clean architecture and performance best practices.
- Designed and implemented 20+ production-level MERN projects simulating real-world client requirements.
- Applied Agile practices including sprint planning, code reviews, and iterative development.

IT Assistant Intern (Networking & Systems Support)

Karachi School of Arts

Feb 2022 – June 2022

- Assisted in maintaining and troubleshooting the Student Information Management System (SIMS), improving system efficiency and reducing downtime.
- Supported database operations and data handling using MySQL, ensuring data accuracy and consistency.
- Collaborated with the development team to support internal web applications built with PHP and JavaScript.
- Performed system monitoring, backups, and user access control to ensure data security and system reliability.
- Helped digitize manual processes, contributing to improved workflow efficiency across departments.
- Provided technical support to staff, resolving system and network-related issues and improving user adoption.

CORE COMPETENCIES

- Full Stack Development (MERN)
- REST API Development
- Microservices Architecture
- Performance Optimization
- Scalable System Design
- Debugging & Troubleshooting
- Code Review & Mentorship

EDUCATION

NED University of Engineering & Technology

August 2024 – August 2026

MS Data Science

Federal Urdu University of Arts, Science & Technology

January 2018 – January 2022

BS Computer Science

ACHIEVEMENTS

 **Performer of the Year Award** – Recognized by the **FSO** for exceptional teaching performance and academic contribution (as **Senior Faculty Member**).

- ✿ **Star Performer Award** – Awarded for outstanding results and student success.
- 💬 **Best Motivator Award (2x)** – Honored twice for inspiring and guiding students toward achieving their academic and professional goals.

LEADERSHIP & EVENT MANAGEMENT

- Led and coordinated multiple **institutional exhibitions and tech events**, including **Aptech Vision, Software Project Exhibitions**, and **TechWiz Competitions**.
- Provided technical guidance to students during event project preparation and presentation phases, ensuring professional execution and innovation.
- Fostered collaboration between departments, enhancing event visibility and student engagement.
